

Report On Intellectual Property Rights and Patents

One day workshop on “Intellectual Property Rights and Patents” was organized in Akemi Business School, Pune, on September 23rd 2017 at 11.00 AM in the Seminar Hall. The Expert Ms. Lalita Kulkarni Deshpande, IPR Analyst, Pune was invited to conduct the workshop.

Topics covered

- a) Introduction of IPR
- b) Innovation in Patent
- c) Patent regulatory bodies at National level

Aim:

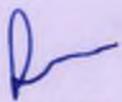

The main aim of lecture talk is to impart greater awareness about patent, which has gained a special importance for all the domains of socio-economic development. It aid to understand of patentability criteria in details and viable aspect of the patent. To use IP information for Patent filling, particularly relating to patents and designs, for further research and development in developing new product and process.

Content:

Ms. Lalitha enlightened the audience about IPR and Patents. Patenting procedures and patent informatics, patent searches, role of innovation and invention in the academia-industry collaborations, trademark and copyright protection, issues of do's and don'ts for a researcher in the context of publishing and patenting. Patent counts have been used to assess innovative output and the returns to R&D at the level of the firm or the sector. To assess the quality of patents, information found in patent documents and external sources has also been used. Patents may also help signaling the quality and prospect value of technologies and innovation developed by start-up ventures. These companies, which are typically liquidity constrained, may apply for patents to attract investment from external financiers. Recent studies have found start-ups' patenting to be correlated with a higher probability of securing venture-financing and with higher valuations by venture-capitalists. Speaker discuss on issues like drawing on research and professional experience. Although exact estimates of the volume of patents sales and licensing are hindered by the confidentiality of most agreements, studies suggest an upward. Patent transactions will address the current state of IP markets, and discuss recent initiatives to develop them further and their role in facilitating the diffusion and adoption of new technologies

Vote of Thanks was proposed by our student and all Faculty members took effort for the success of the guest lecture.

The event concluded with question-answer session.
